

TEMPLAR skis

Carbon skis for snow warriors

SKI MOUNTING FACTORY SUGGESTION

185cm

Ski Lenght

Measure in mm towards the tail from the mark

All Mountain
45mm

Powder
60mm

tail

175cm

Ski Lenght

Measure in mm towards the tail from the mark

All Mountain
40mm

Powder
55mm

tail

165cm

Ski Lenght

Measure in mm towards the tail from the mark

All Mountain
35mm

Powder
45mm

tail

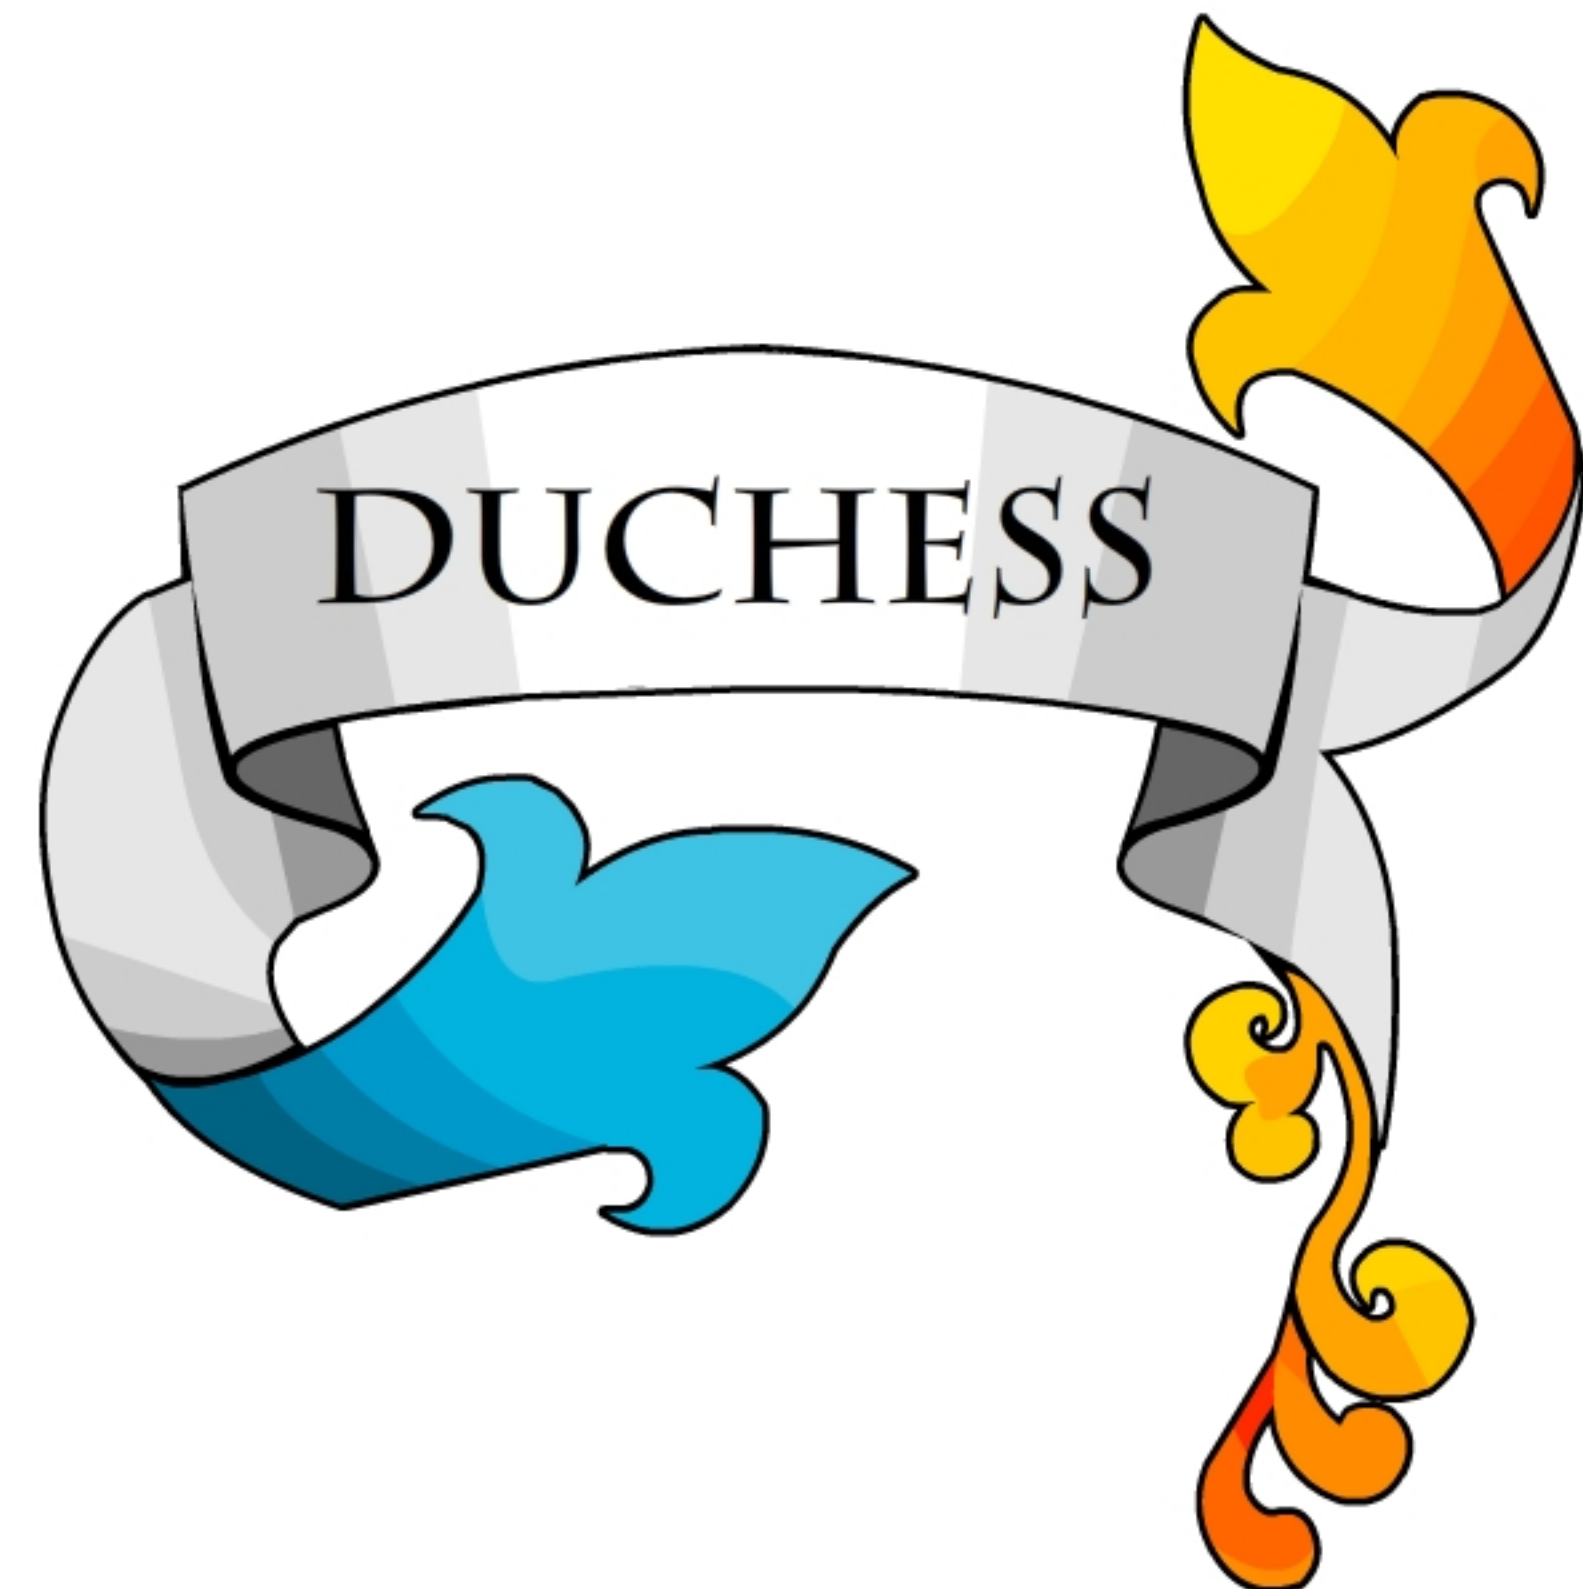

Only mount for powder if that is all you want to do on this ski, it will make skiing on hard pack more difficult. Mount at the mark for park skiing.

We recommend using expanding (PolyU) or Epoxy glue with screws
